

## Scottish Rowing Summer Sprint Series

### Prize Rules

#### Club Performance

A prize will be awarded to the club with the best performance record across the 3 Sprint Regattas. Points will be awarded per crew for 1<sup>st</sup> and 2<sup>nd</sup> place in every event run (3 points for a win and 1 point for runner up).

The club with the most points at the end of all 3 regattas will win the choice of a new Cox box or a set of sculling blades.

#### Keenest Club

A prize will be awarded to the club with the highest average participation (i.e. individuals taking part in each regatta) across the 3 Regattas. An individual who races in more than one event at any given regatta will be counted once at that regatta. Please note this will be based on numbers who race on the day – not entries!

For each club taking part, its average participation will be calculated as the average number of individuals taking part across all 3 events. This will be adjusted to take account of variations in club size by dividing this average by the number of Scottish Rowing members the club had at the end of June 2017. The winning club will again have the choice of a new cox box or a set of sculling blades.

**Good Luck and Happy Racing!**
